

Looking for a safe EPHEDRA alternative? INTRODUCING **AWAKENING**[®]

Some People Call It A Miracle ... We Call It Awakening[®].

My name is Dr. Allan Phillips, I am an Osteopathic Physician, I would like to take a minute or two to introduce you to one of the finest, most efficacious nutritional products I have ever used in my practice.

Dr. Dennis Harper, an Osteopathic Physician in Salt Lake City, Utah was quite surprised as many of his patients were. They were realizing many wonderful benefits while experiencing this product. Dr. Harper wanted to know what **AWAKENING[®]** was doing in the body. He decided to arrange for a few of his patients to have their blood drawn at the University of Utah's Department of Hematology. He wanted to look at their blood prior to taking **AWAKENING[®]** and then again 30 minutes after taking it. The results, according to Dr. Harper were astounding! What he saw on the blood slides and what he concluded was **AWAKENING[®]** was super-oxygenating the blood pathways. The before observations showed many of the red blood corpuscles of the subjects were stuck together. This is generally referred to as relo-stacking. The after observations showed the corpuscles evenly disbursed with no relo-stacking. This explained perhaps why so many of his patients were feeling energized and focused.

I was introduced to **AWAKENING[®]** about 8 years ago when an excited patient of mine informed me about the product and provided me with copies of the original blood slides taken by Dr. Harper. I used the product in my practice and the results I observed were similar to Dr. Harpers. I too was very surprised. The benefits were so profound that the first thing that went through my mind was, this must be another aggressive stimulant loaded with Ephedra or anhydrous caffeine. I was happy to discover this was not the case. ***Oxygen Nutrition Co. realized the dangers associated with Ephedra based products and is proud to say they have never produced an Ephedra product, unlike many companies that did and now only because of federal regulations don't.***

AWAKENING[®] works because it is rich in the finest source of plant-derived trace minerals. These ionic minerals come from 3 different, ancient plant deposits located throughout the U.S. These are the purest and richest source of highly absorbable, pre-historic plant minerals in the world. Perhaps what sets **AWAKENING[®]** apart from other nutritional supplements is **AWAKENING[®]** contains Fulvic Acid and Organic Carbon. Fulvic Acid is arguably nature's most perfect food, originating from the humate materials of the soil.

The products that Oxygen Nutrition Co. offer are uniquely different! You can find similar products in most any grocery store, health food store or pharmacy, or should I say similar in name and description. What you can't see is what's inside the capsule or how the active ingredients are selected and blended. Oxygen Nutrition's products are all rich in plant-derived, ionic trace minerals; they all have a specific blend of active enzymes engineered to carry precious ingredients to where they have to go. **AWAKENING[®]** as do all Oxygen Nutrition Co.'s products contains only premium Grade I and Grade II botanicals.

Oxygen Nutrition Co. products are unique and different; we are constantly in pursuit of raw materials that will enrich people's lives...the products are primarily sold through Doctors' Offices, Chiropractic Clinics, Massage Therapist Centers and Sports Medicine Facilities throughout Australia, New Zealand, England, South Africa, Japan and the United States. They are not your everyday traditional "me-too" products, but rather they are concept therapeutic modalities, formulated and designed using rigorous standards demanded by health professionals.

AWAKENING[®] is the flagship product and it has been sold throughout the world safely for over 12 years. Hundreds and hundreds of thousands of bottles have been sold. After 12 years the company still continues to receive many wonderful **AWAKENING[®]** testimonials and the overwhelming comment they still get from health professionals is, "**THIS PRODUCT IS AMAZING!**"

I enthusiastically recommend **AWAKENING[®]** to you and to each one of my patients. If you want to feel better than ever before in your life, experience **AWAKENING[®]** today.

Allan Phillips, D.O.
